

A TRUCK FOR CITY, FARM AND INTERURBAN DELIVERIES

IN the few years it has been on the market, the Ford One-Ton Truck has mounted rapidly to popularity. During the past year, more than one-third of the total number of trucks sold in the United States, were Ford One-Ton Trucks. It is a record of achievement made entirely on demonstrated merit.

Wherever the Ford Truck has been used—on the farm, in the city, its sure, economical service and simplicity have made it a success. So that today it is necessary for the wholesale, the retailer, the farmer. It offers efficient and economic hauling for every business. Demountable Rims and Pneumatic Tires.

The Ford One-Ton Truck costs less to buy than any other truck; it costs less to operate and less to maintain. Added to this, is the Ford service organization: spare parts and Ford mechanics are always convenient and ready to keep the Ford Truck on the job. The Ford Truck cuts delivery costs. Because of increasing demand, orders should be placed without delay. We will give you prompt attention. If you have any doubts on the subject drop in and get further facts.

LIVE STOCK VALUES SHOW BIG DECREASE

Shrinkage in Markets Given as Cause for Great Reduction in Annual Reports

(By Associated Press)

Frankfort, Ky., Feb. 15—The value of live stock on Kentucky farms January 1, 1921, was approximately \$126,818,000 as compared with approximately \$167,906,000 on January 1, 1920, according to annual estimates issued jointly by the United States Bureau of Crop Estimates in co-operation with State Commissioner of Agriculture W. C. Hanna. The decrease, according to the report of the estimate, is due chiefly to the shrinkage in market value per head, though there has been a considerable shrinkage in numbers, especially of hogs. Dairy cattle show a slight increase in numbers.

This estimate gives the numbers of live stock of various classes in the state January 1, 1921, as follows: Horses, 520,000; mules, 250,000; milk cows, 466,000; other cattle, 562,000; sheep, 1,137,000; and swine 1,429,000. This indicates the number of mules on Kentucky farms is the same as on January 1, 1920; milk cows have increased 2 per cent, while other cattle have decreased 5 per cent, horses a little more than 2 per cent, sheep about 8 per cent and swine nearly 15 per cent.

The average farm value of milk cows January 1, 1921, was \$57 per head, as compared with \$73 the year previous; other cattle \$30.10 compared with \$41.20; horses \$84 compared with \$101; mules \$107 compared with \$126; sheep \$6.70 compared with \$10.99 and swine \$9.90 compared with \$13.

The number of animals on the farm January 1, 1920, was horses 429,000; mules 250,000; milk cows, 457,000; other cattle, 592,000; sheep, 1,236,000 and swine 1,681,000.

The value of the various animals for the two years follow: Horses, 1920, \$43,239,000; 1921, \$35,280,000; mules, 1920, \$31,500,000; 1921, \$26,750,000; milk cows, 1920, \$33,361,000, 1921, \$26,562,000; other cattle, 1920, \$24,390,000, 1921, \$16,916,000; sheep, 1920, \$13,472,400, 1921, \$7,163,100; swine, 1920, \$21,853,000, 1921, \$14,147,100.

The total number of horses in the United States, according to the report, was 20,183,000 on January 1, 1921, as compared with 20,785,000 on January 1, 1920, and the total value was \$1,644,166,000, as compared with \$1,962,503,000 or an average of \$82.45 on January 1, 1921, as compared with \$94.42 on January 1, 1920.

Mules in the nation numbered 4,999,000 on January 1, 1921, as compared with 5,041,000 the year previous, and were valued at \$578,473,000 as compared with \$741,400,000, an average of \$115.72, as compared with \$147.07.

Milk cows numbered 23,321,000 on January 1, 1921, as compared with 23,619,000 the year previous and were worth \$1,491,000 as compared with \$1,010,000 or an average of \$63.79 per head as compared with \$85.11.

Other cattle in the nation numbered 42,870,000 as compared with 42,750,000 on January 1, 1920, and were worth on January 1, 1921, \$1,346,655,000 as compared with \$1,934,185,000 the year previous. The average price per head on January 1, 1921, was \$31.41, as compared with \$43.22 the year previous.

Sheep numbered 45,067,000 on January 1, 1921, as compared with 47,114,000 the year previous, and were worth \$288,732,000, as compared with \$495,660,000 or an average of \$6.41 as compared with \$10.42.

Swine numbered 66,649,000 on January 1, 1921, as compared with 71,727,000 the previous year and were valued at \$765,633,000 as compared with \$1,363,263,000 or an average of \$12.99 per head as compared with \$19.01 the year before.

COAL MEN WANT TIDEWATER OUTLET

Middlesboro, Ky., Feb. 15.—Coal men throughout the eastern Kentucky district are daily filing their applications for membership in the newly organized Charleston Branch of the Tidewater Exchange, according to a statement made here by J. E. McCoy, secretary, who called a meeting of the exchange held at Knoxville recently.

The Charleston Exchange has been organized with the intention of seeking an outlet for coal from the mountain regions to tidewater for export. It is said that coal men believe it will be possible to keep the mines busy even during times of depression.

Very few mines are now in operation in the Bell and Harlan county coal fields and thousands of miners are idle and many are said to be penniless. Many are returning to farms from which they came during the war, it is stated.

For The Children

Too much care cannot be exercised in selecting a cough medicine for the children. It should be pleasant to take, contain no harmful drug and most effectual in curing their coughs and colds. Long experience has shown that Chamberlain's Cough Remedy meets these conditions. It is a favorite with many mothers. feb
